

Play Days with Kellie!

Designed to help you better communicate with your horse while having fun and challenging yourself at the same time. The main indoor arena will be filled with so many unique and challenging obstacles for any level of horse or rider.

This is not your typical clinic, Kellie not only gives great one on one instruction to meet everyone where they are at in their horse journey but also lets you go at your own pace. Play Days are what you make them. If you want to focus more on groundwork, riding, communication, connection, your own abilities, your horses' abilities and more this is the perfect weekend for you!

A bit of theory is included in the morning coffee chat with Kellie. Designed to learn about each other and talk specific goals with your horses. A great way to start the day feeling prepared and confident. This clinic offers both groundwork and riding components if you are up to the challenge!

TRAC Veterinary Committee Education Sessions

Join our veterinary committee for a time of education and round table discussion. There will be 3 education sessions (Saturday morning, Saturday afternoon and Sunday morning).

Topics will include:

Emergency Preparedness, when to call the vet and what to do until they arrive.

Why do I have to run so many circles? Identifying and scoring lameness in the long distance horse, including discussion on lameness and pain ethograms of the ridden horse.

Drugs and performance horses. Looking at the use of some of the drugs we see in sport and review some cases they have been abused.
